**WORK PLAN APPROVAL FOR GROUNDWATER MONITORING WELL CLOSURE -
BOEING REALTY CORPORATION, FORMER C-6 FACILITY, 19503 NORMANDIE AVENUE,
LOS ANGELES (FILE NO. 95-036, SLIC 410)**

Dear Mr. Mossman:

We have received the "Request for Well Closure, Groundwater Monitoring Wells TMW-3, TMW-5, TMW-12, TMW-13 and WCC-11S" (Work Plan) dated October 11, 2002, prepared by Haley & Aldrich. Boeing is proposing to begin redevelopment within Parcel C and the five groundwater monitoring wells a located within the footprint of two buildings that will be constructed. Boeing is also proposing to evaluate the reinstallation of these wells as part of the overall groundwater monitoring program and will submit a work plan for the reinstallation of these wells once the final design and location of the building footprints are finalized. We have completed our review of the Work Plan have determined that the temporary removal of these five monitoring wells will not adversely affect the site-wide groundwater monitoring program or the proposed groundwater remediation, and therefore, approve implementation of the Work Plan.

Please submit a work plan for the installation of additional monitoring wells, as appropriate, for incorporation into the site-wide groundwater-monitoring program by March 31, 2003. Please call me at (213) 576-6737 if you have any questions.

Sincerely,

John Geroch
Associate Engineering Geologist
Site Cleanup Unit I
